Jayne, thank you for putting this together. I had a few comments which I've provided in track changes and attached the document.

Some follow-up regarding next steps. I would like to discuss with you and Dave the idea of planning a meeting (maybe face-to-face) with NoAA and EPA HQ to discuss and evaluate our options for moving forward with a decision, schedule and legal/negotiation posture. I think such a meeting would best be done after the team has had a chance to review and consider more of the comments. I'm thinking mid-May perhaps setting up a face-to-face planning strategy meeting in D.C. What do you guys think? Let's talk about this at our next check-in meeting. By the way, I didn't see the next one on my calendar.
